

Who Are We? WE ARE YOUR FLUID POWER EVERYTHING

Parker Store Locations

We are your complete Midwest source for quality fittings, hoses, valves, quick-disconnect couplings, and assembly tools. Each of our stores stock over 12,000 items and have access to 23,000 different part numbers.

Have a hose that failed? No problem, our experienced Hyspeco teammates will urgently match and build almost any hydraulic/pneumatic hose to your specifications.

Fluid Power Engineering

Our engineers will provide assistance and design needed to build any fluid power project to your desired specification. With 85 years of combined fluid power experience, our design team will efficiently and effectively usher your concept through to a finished product. We are here to assist, educate and guide you through the quoting, design and build process.

24 Hour Service & Repair

SAY GOODBYE TO DOWNTIME

Our Field Service team provides emergency on-site repair for fluid power systems. With seven Hyspeco locations, our fleet accommodates a majority of the Midwest region with 24 hour repair service and preventative maintenance programs. An experienced teammate arrives fully outfitted to consult, quote and begin repairs on your damaged or broken machinery.

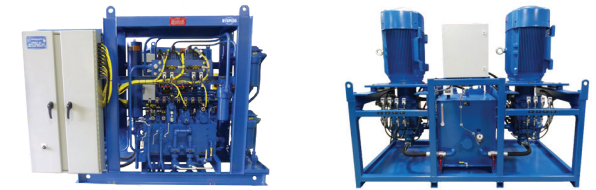

Hose Production

We manufacture a wide variety of hydraulic, pneumatic and industrial hose to almost any needed specification. Our hose and fitting assemblies offer extraordinary resistance for extreme applications. From the smallest projects to the largest of orders, we will help design, build and kit your industry needs.

Custom Fabrication

Hyspeco has or will source the abilities to cut, bend, weld, and assemble various metals in order to achieve the creation of custom hydraulic, pneumatic, or electrical machinery. Our engineers design with quality and cost efficiency in mind and our fabrication team builds to absolute specifications, providing the finest finished product in the industry.

Vendor Managed Inventory

Our VMI Specialists assist in building an inventory stock out system that is proven to reduce on hand inventory and company overhead. Knowledgeable in industry related product and logistical efficiency, your Hyspeco specialist will develop a drop off schedule based on your immediate requirements. Representatives will arrive outfitted to fill your stock demands, check current inventory, relay updates and drop off custom orders.

We carry a vast variety of hydraulic, pneumatic, hose, tubing and motion control products. Our shelves are stocked based on your needs and are consistently updated with the newest technology from our suppliers. Catering to almost every industry within the fluid power realm is what makes us one of the most reliable distributors in the country.

"The beauty of our company is not just the service and products that we provide, but the unshakable ethical core that Hyspeco is built upon. Our teammates consistently drive innovation while changing the lives of our customers and each other. It is this valuable cultural equation that makes us the ultimate employment destination."

- Joe Parrott, President of Hyspeco

In honor of our 50 year anniversary as a fluid power company we are giving away prizes for the next 7 months, starting June 2018. The biggest variable to our success is you. Without you we would not be where we are today, so we would like to invite you to visit our Facebook page and participate in our customer appreciation giveaway.
